VHILS
DOWNTOWN
1202 Kettner Blvd
Front of parking structure

* Invader used GPS technology and a map of the San Diego city grid to plan his city-sized sketch of the Space Invader alien from the classic video game of the same title. The Space Invader Walk is a self-guided tour through downtown in which pedestrians can walk an 11-block-wide path that maps a giant Space Invader, with each city block representing a pixel in the giant alien.
